

dropping a subject

should you drop a subject going into Year 12?

- it's really stressing you out
- your mental health is suffering
- you're unmotivated to go to class
- you can't or won't complete the work
- you won't need it for your next pathway
- you regret choosing it in the first place
- your post school plans won't be affected

how many did you select?

- 1-2 It's probably worth sticking with it
- 3-5 Take more time to consider all the implications
- 6-7 A strong indicator it could be worth dropping this subject
